A Note from the Principal

Our Sunrise School Community Council recently has had parents and neighbors join our SCC meetings to express concerns about safety during our **pick up**. Our SCC has decided to conduct a survey to help inform us as we seek to offer a solution that will help the greatest number of families. Please visit the following link to access the survey:

To learn more about Sunrise School Community Council including our members and meeting times, visit: <https://sunrise.canyonsdistrict.org/index.php/parent-resources/school-community-council>.

Also—please know that you are welcome to park in our west parking lot from 8:20 – 2:55. The gates are not locked and should be open for parking. We **do not** allow parking in the west parking lot from 8:00 – 8:15 and 2:55 – 3:10 because children are arriving and departing from school at those times.

Thank you for your help in keeping our students safe.

Air Quality

Because we all breathe the same air, and share in the responsibility to safeguard it from the harmful pollutants emitted by our homes, businesses and vehicles, Canyons District has declared all of its school campuses idle-free zones. With inversion season upon us, we're re-issuing our Clean Air Challenge and inviting families to join us in combining car trips to conserve gas, walking and biking to school instead of driving, and reducing schoolyard idling during morning drop-offs and afternoon pickups. On Earth Day, 2016, Canyons became the first school district in Utah to go idle free at all of its school campuses. No idling signs were placed at all of Canyons' schools and pledges were sent home with students, encouraging parents to voluntarily pledge to turn their key and be idle free. The idea originated with a parent who dropped by Superintendent Dr. Jim Briscoe's office just over a month ago to share her frustration at seeing exhaust billowing into the air at her child's school's parking lot. Briscoe took her concerns to the Board of Education, and within a matter of weeks, the district's "no idling" campaign was born. "Besides educating students, I feel we have some responsibility for their health, and their future health," says Briscoe, noting that projections show school enrollment doubling over the next 30 years.

NO IDLE ZONE

WHY BE IDLE FREE?

- **SAVE MONEY:** Idling causes unnecessary engine wear and wastes about 6 billion gallons of fuel annually, according to the U.S. Department of Energy. That equates to about 1 gallon per hour for a transit bus or 0.40 of a gallon per hour for a large sedan.
- **IMPROVE AIR QUALITY:** The Utah Division of Air Quality says 38 percent of the state's air pollution comes from cars and trucks — some of it from idling vehicles. Monitoring at schools has shown elevated levels of pollutants during drop-off and pick-up times.
- **IMPROVE HEALTH:** Kids breathe about 2 gallons of air a minute, and because their lungs are still developing, they are more susceptible to the harmful effects of pollutants, which include an increased risk for asthma, respiratory infections and other chronic ailments.
- **IT'S THE LAW:** Several municipalities in Utah, including Salt Lake County, have anti-idling ordinances. For a full list, see www.utahcleancities.org.
- **SCHOOL BUS DRIVERS ARE DOING IT:** In 2007, Utah implemented a school bus idling reduction program. To date, the program has reduced consumption of more than 644,000 gallons of fuel for a savings of over \$1.6 million, and reduced 45,000 lbs. of harmful particulate matter, benefitting air quality throughout the state.

Utah Parent Center

Canyons School District has a great resource for parents/guardians who are interested in learning more about Special Education through the Utah Parent Center. The mission of the Utah Parent Center (UPC or Center) is to help parents help their children, youth and young adults with all disabilities to live included, productive lives as members of the community. They accomplish their mission by providing accurate information, empathetic peer support, valuable training and effective advocacy based on the concept of parents helping parents.

Canyons' Utah Parent Center Lead is:

Lynda Hansen
