A Note from the Principal

Sunrise Elementary Food Drive December 4th - 8th

We are collecting food for the **Utah Food Bank**. Please bring non-perishable food & canned goods to school with you and let's help fight hunger in our community. We have a 500 lb. goal for our school that can easily be reached by our generous Sunrise Community.

Rather donate money? There are envelopes in the office if you would like to leave a donation or go to:

http://fighthunger.utahfoodbank.org/site/TR/ALL/General?px=1131847&pg=personal&fr_id=1070

For every dollar donated, the Utah Food Bank can leverage it into \$7.35 of goods and services to help feed the 392,000 Utahns unsure of where their next meal will come from.

Keep clipping **LABELS FOR EDUCATION** and turn them in to your child's teacher by December 15th. Family, friends and neighbors can help, too! Check your cupboards and gather as many as you can because this is the last collection of these labels because the program is being discontinued. Let's see how many we can collect!

Thanks for your support!

Air Quality

In recent years, we have seen inversions, fires and other factors affect our outdoor air quality. There is concern about the effects of poor air quality on children's health and their ability to breathe easily. Because of this, Sunrise has the following guidelines:

We will check the Particulate Matter (PM_{2.5}) levels. This information will guide our outdoor physical activities.

- When the PM_{2.5} level falls between 35.5 and 55.4 $\mu\text{g}/\text{m}^3$, we will let "sensitive" students **and** students experiencing respiratory symptoms, such as with a cold or allergies, stay indoors.
- When the PM_{2.5} level rises above 55.5 $\mu\text{g}/\text{m}^3$, outdoor recess will be cancelled for all children and alternative play/exercise opportunities will be offered indoors.

Please contact your child's teacher or the office if your child is "sensitive" to poor air quality so that we can make sure they stay inside. Sensitive children may include those with significant or poorly controlled asthma, cystic fibrosis, chronic lung disease, congenital heart disease, compromised immune systems, or other respiratory problems.

For further information on air quality, please visit: air.utah.gov for hourly PM_{2.5} levels and health.utah.gov/asthma/airquality/recess.htm for air quality guidance for schools.

Sunrise is committed to providing a safe and healthy school environment. Please contact margaret.swanicke@canyonsdistrict.org if you have questions.
